YEARS OF EXCELLENCE  
IN RESEARCH

## Benefits of Partnering with Cliantha:

Unlock opportunities for research growth and enhanced patient care by collaborating with Cliantha, you can not only expand your research capabilities but also enhance the care options available to your patients. Our streamlined processes and comprehensive solutions empower your research site to conduct more trials, fostering business growth and success.

Tailored solutions to suit your site's unique requirements we understand that every clinical research site is unique, and that's why we customize our support to align with your specific needs. Whether you're a larger site with complex processes and internal oversight or a smaller site in need of guidance, Cliantha seamlessly integrates with your standard operating procedures and adapts to your existing processes.

Access industry expertise and robust relationships partnering with Cliantha opens the doors to a wealth of industry connections and grants you access to our world-class clinical research experts. Our team delivers tailored solutions and invaluable insights, providing you with the support you need to excel in your research endeavors.

### Benefits of Our Study Start-up Solutions

- ☛ Shorten start-up timelines, reduce backlogs, and enroll patients sooner
- ☛ Alleviate staff burden and circumvent resource limitations
- ☛ Maximize your budgets and secure the funds needed for your trials
- ☛ Mitigate risks and limit your exposure to legal pitfalls in your contracts

## Flexible & Scalable Research Professional Support

We know that growing and maintaining a clinical research program requires specialized skills and scalable resources. With our Precision-Based Site Solutions, on-site or remote research professionals can perform a multitude of tasks required for your trials, including:

- ✔ Site Operational Support
- ✔ Recruitment Acceleration and Enrollment
- ✔ Data Entry and Query Resolution
- ✔ Study Maintenance: Patient Retention and Management
- ✔ IRB and Regulatory Support

Cliantha's Precision-Based Site Solutions can help your site address growing study complexity, allowing your team to continue to focus on what matters the most – your patients.
