# Certificate Course on Clinical Research

A Gateway of Clinical Research industry  
(Instructor-led vocational training)

Eligibility: B.Sc./M.Sc. (Chemistry/Microbiology/Life science)/B.Pharm/M.Pharm/Pharm D /BPT/BHMS/BUMS/BAMS or any other discipline

## Course Objectives

To bridge the gap between industry expectations and academic outcomes through vocational training

Aim to create skilled professionals with practical skills needed for a successful career

We aim to upskill the freshers by engraving the real-time practical abilities, enhancing their absorption towards the clinical research industry.

## Why? Cliantha Academy

Cliantha Research a full-service Clinical Research Organization (CRO), provides comprehensive and integrated offerings in Early Phase (BA-BE & Phase I), Late Phase (II-IV), Respiratory, Tobacco Research, Dermatology, Consumer Research, Research Lab, IVRT, Biometrics, Medical Services, Environmental Exposure Chambers (EECs).

Cliantha, by leveraging on the depth of experience provides ethical, value added customer centric services rooted in excellence, thereby enabling clinical development of pharmaceutical, biotech & healthcare companies.

Cliantha Research is headquartered in Ahmedabad and has expanded its domestic reach with 3 regional offices & has presence in USA (Florida & New Jersey), Canada (Mississauga, Winnipeg & Scarborough) & Europe (Portugal).

- >18 years of clinical research experience
- Trained >2000 clinical research professional (site staff, EC, sponsors etc.)
- Extensive & intense on-site training
- Industry experts as faculty
- Creative/Interactive content
- Placement Assistance & career counseling

## What is Clinical Research?

Clinical research is a branch of healthcare science that determines the safety and effectiveness of medications, devices, diagnostic products, and treatment regimens intended for human use. These may be used for prevention, treatment, diagnosis, or relieving disease symptoms. Clinical Research is conducted on human beings before we get marketing approval to ensure the safety and efficacy of the drug.

## Why should you choose a career in Clinical Research?

- Demand is High for Clinical Research
- India is considered as a preferred hub for Clinical Trials, therefore there are good opportunities for career development

## Modules

The program is designed by industry experts for students and young professionals. The training provides in-depth knowledge of Clinical Research including a theoretical aspect of the field and on site practical training.
