

TOBACCO

Cliantha US is proud to offer a full-service suite of CRO services that are dedicated to the on- going study of tobacco-related products. We offer both a purpose-built clinical facility, conveniently located in Neptune, New Jersey (USA) as well as a fully-validated, proprietary research model for the tobacco industry. This unique model has been utilized over the past 25 years in pharma-sponsored clinical trials. Our ultimate mission is to deliver high-quality clinical data on budget and on time.

10+ TYPES OF TOBACCO CESSATION PRODUCTS
