

## ABOUT CLIANTHA

### History

Cliantha has an impeccable regulatory history of 15 years in clinical research organization. Cliantha placed its footprints in the world of clinical research with the establishment of 100 bed clinic, bioanalytical lab, clinical lab and statistical services at Ahmedabad in 2004.

In 2006, Cliantha scaled clinical facilities with 200 beds in city of Vadodara. And launched late phase services in the year 2010.

Cliantha grew its scientific capabilities in clinical research by acquiring dermatology and consumer research company, Hill Top Research based in USA in 2011. The in 2014 acquired data management company Karmic Lifesciences based in Mumbai. And pulmonary and tobacco research company Inflamax in 2017.

In 2014, Cliantha scaled its bioanalytical, IVRT and IVPT capabilities by opening a lab in Toronto, Canada. In 2017 Cliantha scaled clinical facilities with 100+ beds in national capital Delhi (NCR).
